LCWM COVID-19 Volunteer Protocols

- Volunteers may not participate if they feel sick or if they have been recently exposed to anyone experiencing symptoms consistent with COVID-19.

- 6-foot social distancing must be maintained at all times.

- Disinfecting wipes and hand sanitizer will be provided to clean hands and any shared surfaces (e.g., pens for sign-up).

- Masks will be provided for those who wish to wear them. Mask use is strongly encouraged, but optional.

- Volunteers must supply their own work gloves.

- Snacks and water will be individually packaged. Volunteers are encouraged to bring their own water to limit the use of bottled water.

- Tools will be sanitized prior to the workday. Volunteers will be assigned a tool (or tools) at the beginning of the workday and will use only their tool(s) throughout the event.
